

NOTICE OF PUBLIC OPEN HOUSE MEETINGS FOR THE PROPOSED SILVERTON TO TESLA CREZ 345 KV TRANSMISSION LINE

<p>Tuesday January 26, 2010 Anytime between 4:00 and 7:00 PM Bob Wills Auditorium 604 Lyles St. Turkey, TX 79261</p>	<p>Wednesday January 27, 2010 Anytime between 4:00 and 7:00 PM Fair Park Auditorium Ave. I & Commerce St. Childress, TX 79201</p>	<p>Thursday January 28, 2010 Anytime between 4:00 and 7:00 PM Silverton ISD Cafeteria 700 Loretta St. Silverton, TX 79257</p>
---	--	--

Cross Texas Transmission, LLC (CTT) is proposing to construct a 345 kilovolt (kV) double circuit high voltage electric transmission line as part of the Competitive Renewable Energy Zones (CREZ) initiative. The CREZ project is being developed to integrate additional renewable energy and increase system reliability throughout the Electric Reliability Council of Texas (ERCOT). CTT intends to file a Certificate of Convenience and Necessity (CCN) application in the early third quarter of 2010 requesting authorization from the Public Utility Commission of Texas (PUCT) to construct and operate the transmission line between the Silverton and Tesla Substations.

CTT's routing consultant has identified a number of preliminary alternative routes to connect the Silverton and Tesla substations. These routes, to the extent possible, were developed parallel to existing right-of-ways (ROW) and property boundaries while avoiding or minimizing impacts to environmental and physical constraints. The proposed Silverton to Tesla transmission line will connect the Silverton Substation, southwest of Silverton, and the Tesla Substation, east of Childress near Kirkland. The transmission line will be potentially located in the following counties: Briscoe, Floyd, Hall, Motley, Childress, and Cottle. The proposed line will be constructed in a ROW that is approximately 200 feet wide.

Please note that there will not be a formal presentation as part of these meetings. Detailed maps showing the preliminary alternative routes and other information will be available for individuals to review. Individuals have the opportunity to visit with us anytime between 4:00 PM and 7:00 PM in Turkey, Childress, or Silverton to ask questions and to provide comments to representatives and technical experts from CTT and its consultants regarding the proposed transmission line. CTT and its consultants will consider information gained during these public open house meetings into the overall routing evaluation that will be submitted as part of the CCN application.

CTT is committed to routing, constructing, and operating the proposed transmission lines in a manner consistent with the values of the local communities, and the rules and policies established by the Texas Legislature, the PUCT, and ERCOT.

For more information, please contact CTT toll free at (877) 214-8288 or locally at (806) 669-3000 or via email at info@crosstexas.com
