

NOTICE OF PUBLIC OPEN HOUSE MEETINGS FOR THE PROPOSED GRAY TO TESLA CREZ 345 KV TRANSMISSION LINE

<p>Tuesday October 27, 2009 Anytime between 4:30 to 7:30 PM Fair Park Auditorium Ave. I & Commerce St. Childress, Texas 79201</p>	<p>Wednesday October 28, 2009 Anytime between 4:30 to 7:30 PM City of Wellington Auditorium 802 10th Street Wellington, Texas 79095</p>	<p>Thursday October 29, 2009 Anytime between 4:30 to 7:30 PM Route 66 Museum (Devil's Rope) 100 S. Kingsley Street McLean, Texas 79057</p>
--	---	---

Cross Texas Transmission, LLC (CTT) is proposing to construct a 345 kilovolt (kV) double circuit high voltage electric transmission line as part of the Competitive Renewable Energy Zones (CREZ) initiative. The CREZ project is being developed to integrate additional renewable energy and increase system reliability throughout the Electric Reliability Council of Texas (ERCOT). CTT intends to file a Certificate of Convenience and Necessity (CCN) application in the first quarter of 2010 requesting authorization from the Public Utility Commission of Texas (PUCT) to construct and operate the transmission line between the Gray and Tesla Substations.

CTT's routing consultant has identified a number of preliminary alternative routes to connect the Gray and Tesla substations. These routes, to the extent possible, were developed parallel to existing right-of-ways (ROW) and property boundaries while avoiding or minimizing impacts to environmental and physical constraints. The proposed Gray to Tesla transmission line will be approximately 90 to 120 miles long depending on the route selected by the PUCT. The line will connect the Gray Substation, southwest of LeFors, and the Tesla Substation, east of Childress near Kirkland. The transmission line will be potentially located in the following counties: Gray, Wheeler, Donley, Collingsworth, Hall, Childress, Hardeman, Cottle, and Foard Counties. The proposed line will be constructed in a ROW that is approximately 200 feet wide.

Please note that there will not be a formal presentation as part of these meetings. Detailed maps showing the preliminary alternative routes and other information will be available for individuals to review. Individuals have the opportunity to visit with us anytime between 4:30 and 7:30 PM to ask questions and to provide comments to representatives and technical experts from CTT and its consultants regarding the proposed transmission line. CTT and its consultants will consider information gained during these public open house meetings into the overall routing evaluation that will be submitted as part of the CCN application.

CTT is committed to routing, constructing, and operating the proposed transmission lines in a manner consistent with the values of the local communities, and the rules and policies established by the Texas Legislature, the PUCT, and ERCOT.

For more information, please contact CTT toll free at (877) 214-8288 or locally at (806) 669-3000 or via email at info@crosstexas.com
